

FAMILY PLANNING 2020 COMMITMENT

GOVT. OF RWANDA

[HTTP://WWW.FAMILYPLANNING2020.ORG/RWANDA](http://www.familyplanning2020.org/rwanda)

The Government of Rwanda updated its commitment at the [Family Planning Summit in London, UK](#) on July 11, 2017.

The Government of Rwanda in collaboration with its partners and private sector commits to:

1. Disseminate, implement, and monitor its first-ever integrated RMNCAH Policy and FP/ASRH Strategic Plan at all administrative levels;
2. Program at scale post-partum family planning in health facilities by 2020;
3. Improve awareness and create demand for family planning among its population, including young people, so that, by 2024, total demand for FP will have increased from 72% to 82%;
4. Improve its rights-based FP programming by adding to its available method mix long-acting and reversible methods; and
5. Use the evidence base of high impact practices to inform its policies, strategies and programmes to accelerate the attainment of its FP goals.

The following text summarizes the commitment made by President Paul Kagame on behalf of the Government of Rwanda at the London Summit on Family Planning on July 11, 2012.

Rwanda commits to ensuring the availability of family planning services in each of the 14,841 Rwanda administrative villages (Imidugudu) through delivery by the 45,000 community health workers already in service. Rwanda will expand existing information and dissemination programs about family planning to the general public and will increase awareness of the various choices available. Focusing on convenience and reducing the frequency of visits to health providers, the government of Rwanda will introduce long-lasting contraceptive methods, including permanent ones, and high quality integrated family planning services in every hospital and health center.

PROGRAM & SERVICE DELIVERY COMMITMENTS

Rwanda will ensure the availability of FP services in each of the 14,841 Rwanda administrative villages (Imidugudu) through delivery by the 45,000 CHWs already in service. There are also plans to expand existing FP communications programs to raise awareness of FP choices, and to introduce LAPMs and high-quality integrated FP services in every hospital and health center.
