

FAMILY PLANNING 2020 COMMITMENT

GOVT. OF TANZANIA

[HTTP://WWW.FAMILYPLANNING2020.ORG/UNITED-REPUBLIC-OF-TANZANIA](http://www.familyplanning2020.org/UNITED-REPUBLIC-OF-TANZANIA)

The Government of Tanzania updated its commitment at the [Family Planning Summit in London, UK](#) on July 11, 2017.

By 2020, Tanzania will increase the availability of modern contraceptive methods at all levels of its health system; specifically, the government will:

- Increase its allocation for FP commodities from Tsh. 14 billion in 2017 to Tsh. 17 by 2020;
- Expand the availability of at least three modern contraceptive methods at primary level and at least five modern contraceptive methods at secondary and tertiary level facilities from 40% to 70% (in the last three months from the day of the survey); and
- Scale-up the number of health facilities providing youth-friendly reproductive health services from 30% to 80%.

The following text summarizes the commitment made by President Jakaya Kikwete on behalf of the Government of the United Republic of Tanzania at the London Summit on Family Planning on July 11, 2012.

In July 2012, the Tanzanian government committed to ensure access to voluntary, quality contraceptive information, services and supplies.

Objective

1. Doubling the number of family planning users to 4.2 million by 2020 to reach a national contraceptive prevalence rate of 60 percent.

FINANCIAL COMMITMENTS

The government will increase its financial allocation for family planning, while strengthening partnerships to continue implementing the National Family Planning Costed Implementation Program.

PROGRAM & SERVICE DELIVERY COMMITMENTS

Additionally, the government will execute a FP2020 Action Plan (2013-2015)—updated to National Costed One Plan II for Reproductive Maternal Newborn Child and Adolescent Health (RMNCAH 2016-2020)—to address regional disparities and inequalities through training, capacity-building, community-based services, and interventions targeting young people and post-partum women, with a particular focus on the Lake and Western Zones. Through public-private partnerships and training for service providers and local staff, the government will improve contraceptive commodity security, logistics systems, and method mix. Strategic communications will be used to address barriers to family planning use, through a country-wide campaign carried out at the national and sub-national level.
